

DEPARTMENT OF THE ARMY

JEFFREY S. JUEL

IS OFFICIALLY COMMENDED

FOR

His outstanding teamwork in the preparation of Plans and Specifications for the Chehalis (South & Cosmopolis) Flood Control Project. The development of an environmentally sensitive gate closure is a significant achievement by our District with wide application on other projects throughout the Northwest. In this time of shrinking budgets and increased project funding by local sponsors, the dedication and commitment by team members to provide a quality product at the lowest reasonable cost exemplified the highest professionalism in meeting the needs of our customers, the cities of Aberdeen and Cosmopolis.
